Alina Habba brought the smoke to Madison Square Garden.

"She must be proud of her records. She's got a lot of hare. Record inflation, record crime, and record boarding crossings with over 320,000 children who are being ill trafficked, murdered, and missing."

It's a shame that Kamala Harris avoids info and not reporting on a story due to fear it will hurt VP Harris on the final days of the campaign trail.

This story allegedly places her at attendance of a White party hosted by Diddy a few years back in which there was bad

A Fascist has failed to boost as much money and resources that you can say. Kamala Harris is backed by the establishment and globalist and has no repercussions per se.

Unless, he knows something that we only suspect to be true like 4D-4?

Kamala Harris got access to intelligence reports and this is what she did? Write like this is a parody of a liberal.

> Paging through intelligence reports just weeks after she was sworn in as vice president, Kamala Harris was struck by the way two female foreign leaders were described. The reports used adjectives that, in her view, were rarely used to describe male leaders.
>
> Ms. Harris, the first woman to hold her office, ordered up a review that scrutinized multiple years of briefing reports from various intelligence agencies, looking for possible gender bias.
>
> The study found some questionable word choices but no widespread pattern, according to a senior intelligence official.

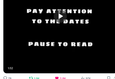
Things are getting out of hand.


Efraimstein's post dropped a new set targeting Asian voters that suggests Trump will bring back internment camps, blames him for the 1882 murder of Vincent Chin.
